Blooms in spring, with delicate white flowers arranged in clusters. Produces berry-like fruit that ripens in June.

- Sun: Full sun to partial shade
- Mature height: 15-40 feet
- Mature spread: 15-40 feet
- Growth rate: Medium
- Easily grown in average, medium moisture, well-drained soils
Large and handsome tree. Brown bark exfoliates in irregular pieces, revealing white inner bark.

- Sun: Full sun
- Mature height: 75-100 feet
- Mature spread: 75-100 feet
- Growth rate: Medium to fast
- Easily grown in average, medium to wet, well-drained soils
One of the most majestic of the native North American oaks. Gets its name from its fringed, burry acorn cups.

- Sun: Full sun
- Mature height: 60-80 feet
- Mature spread: 60-80 feet
- Growth rate: Slow, but long-lived
- Easily grown in average, dry to medium, well-drained soils
Fragrant white flowers appear in early to mid-summer, and are very attractive to butterflies and other pollinators.

- Sun: Full sun to partial shade
- Mature height: 5-12 feet
- Mature spread: 4-8 feet
- Growth rate: Medium
- Grow in consistently moist to wet soils
Bright yellow, round clusters of flower blossoms bloom in early spring. Fruit is cherry-red and is loved by birds.

- Sun: Full sun to partial shade
- Mature height: 15-25 feet
- Mature spread: 15-20 feet
- Growth rate: Medium
- Easily grown in average, medium moisture, well-drained soils
